Behind the Lines: Russia's Brainwashing of Teenagers in Occupied Ukraine

By Elina Beketova

October 19, 2023

Moscow is devoting billions of rubles to engage with young people in occupied Ukraine as it seeks to convert them to a Russian view of the world.

Who is doing the brainwashing: The Russian Government, or agents thereof

Who is being brainwashed: Ukrainian Teens in territories currently occupied by Russia as part of their ongoing invasion of Ukraine.

What: Brainwashing in order to ensure current (and future) political loyalty to the Russian regime, and support the “Special Military Operation”

Where: Zaporizhia, Donetsk, and Luhansk Oblasts of Ukraine(occupied by Russia)

Why: In order to make their conquest of Ukrainian territory seem legitimate, they need popular support - brainwashing is an effective way to go about this.

How: Mass Media, trucks that move around with projectors, TVs, speakers, and propagandists to spread the Russian message.
